

FOR IMMEDIATE RELEASE:

**MAKO Surgical Corp. Names Charles W. Federico
to Board of Directors**

FORT LAUDERDALE, Fla. (June 6, 2007) – MAKO Surgical Corp., a developer of minimally invasive, robotic-enabled techniques for knee surgery, announced today that Charles W. Federico has been named to the company's Board of Directors, effective June 5.

Federico has more than 32 years experience in the medical device industry and most recently served as Group President and Chief Executive Officer of Orthofix N.V., a recognized leader in minimally invasive orthopedic and trauma surgical devices. Federico remains a director at Orthofix and also serves as a trustee on the prestigious Orthopaedic Research and Education Foundation.

“We are extremely pleased to have Charles Federico join our Board of Directors,” said MAKO Surgical Corp. President and CEO Maurice R. Ferré, M.D. “His knowledge and reputation are second to none within the orthopedic medical device industry, and we feel he will bring tremendous value and insights to MAKO.”

Prior to joining Orthofix in 1996, Federico was President of Smith & Nephew Endoscopy, formerly known as Dyonics, Inc, a top arthroscopic surgical instrumentation company. He also served as Vice President, Director of Marketing and General Manager of Dyonics and has held numerous management and marketing positions with General Foods Corporation, Puritan Bennett Corporation and LSE Corporation. In addition, he currently serves on the boards of SRI/Surgical Express, Inc. and BioMimetic Therapeutics, Inc.
